MINING PAPERS STAMPED.

Thomas J. Lynch, United States collector, has received the following notification from Justus Wardell, collector at San Francisco:

"The act of October 3, 1917, requires that revenue stamps be attached to proofs of labor, certificates or notices of location and notices of intention to hold mining claims."

The stamps cost 10 cents each.

MEETING TONIGHT TO COMPLETE ARRANGEMENTS FOR XMAS SHOW

The directors of the Tonopah Volunteer Fire Department gymnasium, consisting of H. R. Grier, R. Fred Brown, Charles Epstein, James J. McQuillan, Ray Piercey and H. W. Skinner, will hold a meeting tonight to complete the final arrangements and details for the big boxing and wrestling carnival to be given at the Aldrome in this city on the afternoon of December 25, at 2:30 o'clock, when The Masked Marvel, who has been imported by the Goldfield boosters, and William Berne, the great Russian-Slavonian, meet in a catch-as-catch-can wrestling match, best two out of three falls, to a finish, for a purse of \$300, to be divided \$200 to the winner and \$100 to the loser, and a substantial side bet, for the benefit of the Volunteer Fire Department gym, which became badly involved in debt when part of the building was destroyed by fire recently.

It is the desire and wish of the directors to try to get the institution on its feet by the first of the year. The Business Men's Athletic club very generously agreed to allow the net proceeds to go to the benefit of this worthy cause and in addition subscribed for \$100 worth of ringside seats to promote and assist in making the event a great success.

The committee on arrangements is today mailing out the big posters announcing the show to all parts of

Southern Nevada, and it is anticipated that a record breaking crowd will be in attendance when Referee King Pierce starts the boys on their way Christmas day.

Kid Carter, the great colored heavyweight and George Pappas, the San Francisco Greek heavy, are now hard at work getting in shape for the big 10-round boxing contest which will form part of the show, while William Berne, the wrestler, will leave Los Angeles tonight for Tonopah and should arrive here late tomorrow night or Saturday morning.

Both of the boxers and Berne will condition themselves in Tonopah at the local gym, while The Masked Marvel will train in Goldfield under the direction of Victor Ajax.

The advance sale of seats was placed with the Tonopah Club, the Cobweb, Tonopah Liquor Co., Mizpah Hotel bar and Walter Drysdale yesterday and the fans are already securing choice seats.

In addition to the above places, seats may be obtained from Harry R. Grier, general agent of the Tonopah & Tidewater railroad, at his office.

As the cause for which the contests are being given is most worthy and the business interests of the town will all be benefited by the many hundreds of people who will come from the outside who will spend their Christmas in our midst, let's all join in making the event one grand success.

TRANSPORTATION RUMOR KILLED BY R. S. LOVETT

R. S. Lovett has unequivocally denied that denial of transportation facilities to supplies for gold and silver mines has even been contemplated.

The following telegram, which is self-explanatory, was received today by Henry M. Rives, secretary of the Nevada Mine Operators' association: Washington, Dec. 13, 1917.

Henry M. Rives, Secretary Nevada Mine Operators Association, Reno Nev.

Have just received following letter from R. S. Lovett, chairman priorities committee of war industries board of the council of national defense, in reply to my letter of the 8th, copy of which was wired Reno Commercial club: "I am this morning in receipt of your letter of the 8th instant, and in reply beg to say that it is the first information reaching me that anyone had even so much as suggested the denial of transportation to and from the gold and silver mines of Nevada and other western states. Certainly the thought had never occurred to me. It follows, of course, that I have no intention of exercising any authority I possess for any such purpose."

KEY PITTMAN.

DISLOYAL BISHOP.

ST. LOUIS, Mo., Dec. 13.—A committee of Protestant Episcopal bishops last night recommended the resignation of Bishop Paul Jones of Salt Lake City, who appeared before the committee here yesterday charged with disloyalty. In a statement given out by Bishop Jones he said he would abide by the decision of the committee.

Bishop Jones was charged with having made disloyal remarks and with activity contrary to the spirit of the church. Bishop Jones helped organize the People's Council of Peace and was present at a pacifist meeting in Pasadena, Cal.

Emeralds and Beryls.

There is no decline in the vogue of the emerald, using the word not in the generic sense of the trade, but for a beryl of the accepted green emerald blue. Fine specimens always cause a flutter in the auction room, for the very good reason that those are extremely rare. Perfect stones are as costly as fine rubies and, of course, much more so relatively than diamonds.

The Duke of Devonshire owns what is believed to be the largest and nearest faultlessness in existence, and it came from Nuzo, in Colombia, the main source of modern examples. The ancient emeralds of great magnitude we read of were probably not beryls at all, and, indeed, "oriental emerald" is the designation of the green corundum. London Chronicle.

FIRST INDOOR BALL GAME NEXT TUESDAY

The first indoor baseball game of the season will be played next Tuesday evening at the Aldrome between the Giants, a formidable team made up of bankers and brokers, and the Rough Necks, a team of athletic girl students of the high school. The first practice game was held last night and some clever playing is assured next Tuesday evening.

The game will be called at 8 o'clock and will last about an hour. A jittery dance will follow, the music for which will be furnished by Young's six-piece orchestra.

The affair is a joint benefit for the surgical dressings committee and the municipal Christmas tree, both of which are eminently worthy causes.

The line-ups for the game will be as follows: Rough Necks—Katie Logan, pitcher; Van Halberg, catcher; Luella Roberts, shortstop; Vena Frazier, first base; Marguerite O'Brien, second base; Arleen Dalzell, third base; Lucille Murphy, fielder; Clair Leibrand, fielder; Katie Bowler, fielder.

Giants—Fred Brown, catcher; Micky Johns, pitcher; William Gomm, first base; H. Skinner, second base; Will Brown, third base; "Messenger" Murphy, shortstop; Dan Cain, fielder.

THE PLAY OF "HAMLET."

Does It Always Make the Dane and the Gravedigger Enemies?

In his "Notes on Shakespeare's Workmanship" Sir Arthur Quiller-Couch says that "Hamlet" was written "not for an audience of Goethes and Coleridges, but for an audience of ordinary men and women," and, speaking of its popularity, he says that "[British] actors, thrown on their beam ends for lack of money, having acted this or that to empty houses, always as a last resort advertise "Hamlet." When an actor takes a benefit, "Hamlet" is the piece most commonly chosen. * * * But why does the gentleman who enacts the first gravedigger also choose "Hamlet" for his benefit night?

I was once assisting at a dress rehearsal of "Hamlet" when the first gravedigger came off the stage in a passion. In the greenroom it exploded. "Why," he wished to know, "should I be treated like a dog by this conceited fool?"—meaning our Hamlet, of course. "His temper gets viler at every rehearsal. Surely, after airing his vanity through four acts, he might be quiet while I have my little say."

"Bless you, sir," answered an old dresser, "it's always like that. In these forty years I've helped dress, I dare say, all that number of Hamlets, and Hamlet and the First Gravedigger always fall out. It's a regular thing. I've known 'em to come to blows. Hamlet and first gravedigger! When you've said that you've said oil and vinegar."

Advertise in the Daily Bonanza.

PERSONAL

C. L. FISH of Round Mountain is visiting in Tonopah.

J. H. WILLIAMS of Los Angeles is a late arrival at the Mizpah. MRS. W. E. CONANT of Hot Creek is registered at the Mizpah hotel.

T. J. BELL, the Reese River rancher, was an arrival in Tonopah last evening.

T. T. COMFORT, the mining operator at Bellehellen, is stopping at the Mizpah.

DAVE GREGOVICH left this morning for San Francisco, where he goes to enter the medical corps, he having volunteered his services yesterday.

HUGH H. BROWN, the attorney, accompanied by his wife, left for Reno this morning. Mr. Brown goes to attend the State Bar association convention, which convenes in that city tomorrow. Mrs. Brown will continue on to San Francisco for a short stay.

WHIST PARTY AND BALL TONIGHT FOR WAR CAUSE

Tonight is the night of the whist party and ball at Knights of Columbus hall. It is to be given by the Knights of Columbus and Catholic ladies for the benefit of the war camp fund. Every one attending is assured of a good time. Everyone is invited to avail themselves of this opportunity to help a worthy cause. The card game will start at 8:30 o'clock. The admission charge is 50 cents.

The committee in charge of the affair, and to which belongs a great deal of credit for the amount of work, accomplished, consists of John McGillion, James Dunne and Jack McGinn.

LIVING IN JAPAN.

Hard Work For the Middle Classes to Make Both Ends Meet.

Dr. Takata, Japanese minister of education, has recently published a book concerning economic conditions in Japan. The pinch comes harder upon the middle classes than upon the lower classes since the former must not only live, but must keep up a respectable appearance on salaries no greater than those that men who work at trades receive.

For example, according to Dr. Takata, a primary school teacher earns \$15.50 a month, but his lowest budget for a family of four reaches \$17.33. His wife must do work at home to earn the deficit. A magazine editor and writer who has a wife, two children and a maid spends \$32.75 monthly on household sundries. His earnings are irregular, but always below his expenses. He has been compelled to borrow money from his wife's relatives, and her trousseau is not unknown to the pawnshops.

The learned author states that two-thirds of the Tokyo doctors earn no more than \$50 a month. Obviously the professional classes of Japan are in the grip of conditions that are far from enviable.

VILLA FORCE BEATEN.

(By Associated Press)

PRESIDIO, Tex., Dec. 12.—General Pedro Yavela, with a force estimated at 500 men, occupied Ojinaga yesterday afternoon at 5:20 o'clock without resistance. The Villa followers having evacuated Ojinaga Tuesday. Yavela asserted he expects 400 more of his troops today and that General Jose Murguia will arrive today with 300 men. Yavela said his troops had a fight at Coyame with Villa followers and that thirty-six men of Villa's force were killed.

MULLIGAN CLUB ENTERTAINS.

Last evening the members of the Mulligan club had as their guest at Mooney's grill Dave Gregovich, who has been an active member of the organization. An elaborate repast was served in his honor. Appropriate speeches were made and no detail was overlooked to make the farewell a rousing one. Gregovich has enlisted in the medical corps. He departed for San Francisco this morning.

TRUCKS DELIVERING WOOD.

The two Mitchell trucks being operated by J. G. Crumley made their first trip loaded with pine cut wood from Silver Bow day before yesterday and returned today. From now on regular trips will be made. They brought in four cords of wood each.

Hot Tom and Jerry at the Bank Buffet. adv

AMUSEMENTS

BESSIE LOVE AT THE BUTLER

Bessie Love, who was last seen in "The Sawdust Ring," will appear at the Butler this evening, in "Wee Lady Betty," a Triangle play of the Emerald Isles. On the Island of Kileroney, the Wee Lady Betty rules the tenants of the O'Reilly castle with a stern hand and a big heart. Their fear of the Wee Lady is next to the fear of the ghost of "Slasher" O'Reilly that is said to walk in the haunted room of the castle. When Sir Daniel O'Reilly dies, Roger O'Reilly announces that he will take possession of the estate. The tenants, however, will not see the Wee Lady dispossessed, and some amusing situations ensue, following the arrival of young Roger. It is a sparkling play that will be pleasing to all. In addition to the feature, a Triangle comedy will be shown, entitled "Their Domestic Deception."

Tomorrow, Gladys Brockwell, the celebrated emotional star, in "Conscience," something entirely new in photoplays, and the eighth number of "The Fighting Trail," in which some of the wildest horseback rides ever filmed will be seen. This is a picture that is gaining in popularity and attendance every week.

Coming, on Xmas day, Mary Pickford, in "The Little American."

PRESIDENT CONSIDERS

(Continued From Page One.)

ous government departments, they said, is doing more to slow up freight movement than any other single factor.

The railroad, it was reiterated, are not seeking a government loan or a repeal of anti-pooling laws. They believe that measures already taken for the common use of equipment and trackage will bring relief from congestion, though government approval of railroad credit will be necessary if the roads are to raise capital that will be needed next year.

After seeing the board members the president received the legislative representatives of the four railroad brotherhoods, who came to Washington to urge that there be no repeal of legislation assuring the safety of workmen. The railroad men were particularly concerned over reports that congress might be asked to repeal full crew and safety appliance acts.

Washington Monument.

The cornerstone of the Washington monument was laid on its fine site, which overlooks Washington, Georgetown, Arlington and Mount Vernon, by President Polk July 4, 1848. Its marble shaft rises in all the dignity of undecorated simplicity to the height of 555 feet. The base of the shaft is fifty-five feet square, and it gradually tapers until at the 500 foot point it has diminished to less than thirty-five feet. This monument is said to contain 18,000 blocks of marble, each two feet thick. They were lifted on an elevator run by steam, suspended in an inner framework of iron, which was built up at intervals, thirty or forty feet at a time, in advance of the surrounding masonry. The aluminum capstone, nine inches high, was set in position Dec. 6, 1884, thirty-six years and a half after the cornerstone was laid.

Nature Teaches Inventors.

"We get our hints from nature," the inventor said. "Take, for instance, the hollow pillar, which is stronger than the solid one. The wheat straw showed us the superior strength of the hollow pillar. Solid, the wheat straw would be unable to support its head of grain. Where did man get his idea for carriage springs? From the hoofs of the horse, which, like the springs derived from them, are made from parallel plates. Scissors we get from the jaws of the tortoise, which are natural scissors; chisels from the squirrel, who carries them in his mouth; adzes from the hippopotamus, whose ivory is adzes of the best design; the plane from the bee's jaws; the trip hammer from the woodpecker."

Homespun Philosophy.

"Don't wear out shoe leather seeking trouble, for it's all time hunting' you and wondering why you live so far. The fields will answer the world's prayer for its daily bread if it's in earnest with the handlin' of the hoe."

Some folks ask neither poverty nor riches, but only middlin' ground and somebody to till it for 'em.—Atlanta Constitution.

Minimum of Waste.

"No waste, now, ma; no waste. We all gotta help."

"You attend to your own business," snapped ma with some acerbity. "The only things I throw away are tea leaves and eggshells."—Kansas City Journal.

CLASSIFIED

FOUND—One pair of silver-rimmed nose glasses. Owner may have same by calling at the Bonanza office and paying for this ad.

FOR RENT—5-room modern furnished house, formerly occupied by H. Epstein. Apply Tonopah assay office. 1055D111f

FOR RENT—6-room house, well furnished; two rooms can be sublet; water, lights and gas. Apply to Famous Shoe Shop. 1054D111d

THE MILITARY AVIATOR.

He Must Be a Soldier, a Mechanic and Absolutely Fearless.

It takes nine months to make a military aviator. The profession makes the severest possible demand upon the resources of the individual. It requires a combination of physique, of courage, of nerve poise, to make the expert flier, while to do the work of an aviator in war involves technical skill that can hardly be characterized as short of scientific.

The military flier must be a soldier, a mechanic and a daredevil. Besides sailing his craft and fighting his enemies, he must be mathematician enough to make his observations, artist enough to take photographs, telegrapher enough to operate his wireless, navigator enough to pick his way by means of map and compass over unfamiliar landscapes and resourceful enough to contend with fog, with cloud and with the thousand and one contingencies which the hazards of the air involve. Furthermore, his most difficult technical duties must be performed while that element of the death constant with which he always rides is augmented by the nasty rattle of aerial machine guns around and above him and the yap of bursting anti-aircraft shells which pursue him from below. No man with the effects of dissipation vitiating his blood and unsettling his nerves can be trusted with the issues of the air. Peter Clark Macfarlane in Collier's Weekly.
